Comments:

- The vast majority of borrowers commented that they had always wanted to try skiing or snow-shoeing, but had been reluctant to invest in the equipment in case they ended up not liking the sport. People have been pleased to be able to borrow equipment and try these activities at no cost.

"Good quality equipment – nice and light."

"This has really changed how I feel about winter. I'm loving it. And if this program hadn't existed, I never would have tried skiing."

"Our friends were coming to visit the area and we were trying to think of things to do with them. This allowed us to take them out on the trails and see the area."
